

TECHNICAL DATA SHEET

FIREFLY FIX EVO- SKID - S LIGHT TOWER

LED light head

High-strength die-cast aluminum body rated IP67 with a lifespan of 85,000 hours

Lifting

Galvanized pole with manual lifting system, can reach a maximum extension of 5.5 m

Holes

4 base holes for mounting the light tower on generators or external supports.

Galvanized pole features

Height	5,5 / 7 m
Lifting system	Manuale
Rotation	360°
Aerodynamic resistance	80 km/h

LED	LUMEN	ILLUMINATED AREA
4x75W LED	55.000 lm	1500 m ² - 3000 m ²

TECHNICAL SPECIFICATIONS	
Frequency	50 Hz (available in 60 Hz)
Voltage	230 V (available in 110 V)
Power	/
Operating temperature	-30/ +50
Noise emissions	0 db
Consumption	
4x320W LED	1,28 kW

Frame and trolley	
Trolley	Stationary
Stabilizers	/
Tires	/
Base	4 mounting holes
Paint finish	/

Dimensions	
Overall dimensions	216x90x52 cm
Weight	90 kg
